Freezing cardboard storage box, pre-assembled compartments

Manufacturer : Kalstein

Price : \$ 164.06

Description :

Keeping an organized laboratory is one of the main goals you must set yourself when you run a lab. Having your lab ware in the correct order is going to make your workflow a lot smoother, because you will be able to find everything at the tip of your hand. When it comes to frozen samples the preservation and storage has to be strict, because you need to maintain the right temperature in order to keep the sample safe. In pathology laboratories, sectioning frozen samples is a very common procedure, which means that you must have the right storage box in order to save your samples.

Cardboard storage box

Since we consider the storing process a very important one, we present you with this freezing cardboard storage box with pre-assembled compartments. This is an especially designed model for the storage and the preservation of frozen samples. This is a white-treated cardboard box, which is covered by special white paper that is hand-stuck and hand-assembled in order to provide better quality. Another great feature about this model is that it has pre-assembled compartments. Since this a freezing cardboard box, it holds temperatures up to -100 degrees Celsius, being the ideal storage system for your frozen samples. In addition, you should also know that this cardboard box comes with printed alphanumeric identifications on each box.

These freezing cardboard storage boxes come in 8 different measurements and capacity. The first one is a 16-well (4x4) that holds tubes with a 30 mm height, in addition it measures 13,4 cm x 13,4 cm x 12,2 cm. These boxes come as 48 units per bulk. The second one is a 49-well (7x7) that holds tubes with a 17 mm height, in addition it measures 13,4 cm x 13,4 cm x 11,5 cm. These boxes come as 36 units per bulk. The third one is a 64-well (8x8) that holds tubes with a 2" height, in addition it measures 13,4 cm x 13,4 cm x 5,1 cm. These boxes come as 96 units per bulk. The number four is a 81-well (9x9) that holds tubes with a 2" height, in addition it measures 13,4 cm x 13,4 cm x 5,1 cm. These boxes come as 96 units per bulk. The fifth one is a 100-well (10x10) that holds tubes with a 2" height, in addition it measures 13,4 cm x 13,4 cm x 5,1 cm. These boxes come as 96 units per bulk. The number six is a 64-well (8x8) that holds tubes with a 3" height, in addition it measures 13,4 cm x 13,4 cm x 7,6 cm. These boxes come as 48 units per bulk. The seventh one is a 81-well (9x9) that holds tubes with a 3" height, in addition it measures 13,4 cm x 13,4 cm x 7,6 cm. These boxes come as 48 units per bulk. Finally, the last model is a 100-well (10x10) that holds tubes with a 3" height, in addition it measures 13,4 cm x 13,4 cm x 7,6 cm. These boxes come as 48 units per bulk.
