

## Paddle Pipette

**Model : YR1150**

**Paddle Pipette**

**Manufacturer : Kalstein**

**Price : \$ 112.18**

**Description :**

Many items are an important part of an inventory in a lab. Without them, testing samples and working in any medical environment would not be impossible. Kalstein products is offering you the possibility of having the high-end tools and products for your laboratory, so that you can rely and trust that the work you are doing, is the best.

One of the most common tools and devices inside any lab is the transfer pipette. This is a lab tool, commonly used in chemistry, biology and medicine to transport a measured volume of liquid, often as a media dispenser. There are several designs and purposes with different levels of accuracy and precision. In this case, we are presenting you with the paddle pipette specially designed for mixing and latex agglutination tests, pregnancy tests and blood grouping cards.

### Transfer paddle pipette

This kind of pipette is very common in the biology field. You should know that they can be used to perform some specialized tests in the research and bioanalysis field. This means that is very important that you follow a standard pipetting technique. This kind of pipette is a single piece of plastic pipette with an additional paddle on top of the bulb, which can be used for mixing.

### Transfer pipette function

About the functions, it is recommended that the user aspirates the liquid at a 90 degree angle, dispense at a 45 degree angle and touch off to make sure all the liquid is dispensed. These recommendations are a very important advice to follow to ensure the precision in your sample-testing, this way guarantees less mistakes in the results, making them more reliable. The uses ranges from general purpose to sensitive lab research.

The particular pipette we are presenting you has a 3 ml capacity. The total length of the transfer pipette is 130 mm. The stem diameter is 3.8 mm. In addition, this is paddle pipette, so the bulb draw is 0.2 ml. Finally, the dropper/ml is 33.

About the packaging, the transfer pipettes can come as 500 unit per box

## Paddle Pipette

and 3000 per case, this category is the non-sterile type. There is also the option of packaging 1 per peel pack, 500 per case, and 5 per peel pack and 500 per case. This last two have gone through the Ethylene Oxide Sterilization process.

- Capacity:3ml
- Total Length: 130mm
- Dropper/ml: 33
- Stem Diameter: 3.8mm
- Bulb Draw:0.2ml

Parameters by Model

## Paddle Pipette

**Transfer pipette, Paddle Pipette**

Model	Description	Sterility	Case Qty.
YR1150	500/Box,3000/Case	Non-	3000
YR1151	1/Peel Pack,500/Case	EO	500
YR1151-1	5/Peel Pack,500/Case	EO	500

## Paddle Pipette

### Options available for Paddle Pipette :

#### Variation

(YR1150) 500/Box 3000/Case Nonsterile,  
(YR1151) 1/Peel Pack 500/Case Sterile (-\$ 68.36),  
(YR1151-1) 5/Peel Pack 500/Case Sterile (-\$ 74.20).
